

Grow a girl. Build a boy. Learn how.

Come see how our schools focus on academic achievement and character development. In sum, this approach will ensure our students learn early on what is necessary to ultimately be accepted into and thrive in the college of their choice.

Visitors will also witness our core values of scholarship, merit community, and responsibility. These values help create a positive school environment for students, families, and staff.

All aspiring and experienced school leaders are invited to attend one of our Resident Principal Information Sessions.

All aspiring and experienced teachers and school leaders are welcome to attend our Instructional Staff Open Houses.
