View (no login required)

- Watch Mystery Science- [Why do baby animals look so cute?](#) Pause and answer questions.
- Then visit and explore [Mind: The Science, Art, and Experience of our Inner Lives](#) and investigate factors that make animals, people and objects cute- or not.

Do

- Play Animal Charades- Students have had several experiences closely observing animals' behaviors. Play a game of animal "charades" with your child at home. Each person takes a turn at imitating the behavior of any animal he or she chooses. The rest of the family guesses what the animal is. If hints are required, guessers may only ask questions that can be answered by simple yes or no answers.
